CHIRAN ARYAL

FULL STACK DEVELOPER

✉ chiranaryal224@gmail.com   📞 9766838488   📍 TIlottama-05, Rupandehi   ⊙ Chiran Aryal

Profile

Full Stack Developer with 1 year of experience building reliable, scalable, and user-focused web applications. I specialize in turning ideas into fully functional products from designing efficient backend architectures and APIs to developing responsive, clean, and smooth frontend interfaces. I work with technologies like JavaScript, React, Node.js, Express, and databases like MongoDB/MySQL, while collaborating closely with designers and stakeholders. My process is driven by clean code practices, performance optimization, testing, and continuous iteration to improve functionality, usability, and overall product quality.

WORK EXPERIENCE

FULL STACK DEVELOPER, *ELZA.FUN*

Designed and improved dashboards and checkout experiences for ELZA.FUN, creating clean, user-friendly interfaces and smooth user flows from data viewing to successful purchase.

EDUCATION

S.L.C. (School Leaving Certificate) - A+ Grade,   2023
Shanti Model Secondary High School.

S.E.E. (Secondary Education Examination) - A+ Grade, *Dawn Model Academy*   2022

Bachelor's Degree (Current, 3rd Semester),   Tilottama-Nepal
Lumbini City College (Affiliated with Tribhuvan University)

SKILLS

- Python, Django, Node.js, NestJS, Express, GraphQL/REST
- MongoDB, MySQL
- React, Next.js, SvelteKit, Tailwind CSS

PROJECTS

Pahadi - Travel Agency Website

- Developed a fully responsive travel agency website with clean layouts, clear content hierarchy, and visually engaging hero sections showcasing mountain and travel experiences.
- Implemented an intuitive navigation system and smooth end-to-end booking flow, ensuring users could explore destinations, check details, and complete bookings with minimal friction.
- Built both frontend and backend components—creating dynamic pages, integrating APIs, handling user inputs, and managing booking data with a secure and scalable architecture.
- Structured the project with reusable components and modular code, ensuring consistent UI behavior and easy future expansion.

Elza - Web App (Dashboards & Checkout)

Developed dashboard and checkout interfaces for elza.fun, focusing on clear visual hierarchy, intuitive user flows, and a frictionless purchase experience through thoughtful layout, typography, and interaction design.
